# Trick or Treat Safety Tips

Keep the fun in Halloween and the kids safe!

## Trick or Treat with an Adult

Always go with a parent or trusted adult. Stay in a group and don't wander off.

## Use a Flashlight

Make sure you can see and be seen. Flashlights help you avoid tripping and help drivers notice you.

## Wear Safe Costumes

- Use bright colors or reflective tape, especially at night.
- Make sure costumes fit well and don't block your vision.
- Avoid long capes or anything that could cause tripping.

## Only Accept Sealed Treats

Check your candy before eating it. If it's unwrapped, looks tampered with, or you're not sure, don't eat it. Ask an adult for help.

## Trick or Treat at Well-Lit Houses

Stay in neighborhoods you know. Go to homes with porch lights on and avoid houses that look empty or don't have lights.

## Be Aware of Traffic

Look both ways before crossing streets. Use crosswalks when available and watch for cars, especially in driveways and parking lots.

## Keep Your Phone Handy

If you get separated from your group, know how to call your parent or guardian.

## Stay Calm and Have Fun!

Be kind, follow the rules, and look out for one another. It's all about making happy and safe memories.

**Have a safe & happy Halloween!**
